

Mini Viking

For day care facilities and crèches as well as private use

The Mini Viking range is a comprehensive selection of products designed for use in day care facilities and crèches as well as for private use. This range take into particular consideration the kinds of motor skills children have at this age, and are designed to aid their development. The play value is high, and they are ideally suited for children in this age group. Children love the Mini Viking.

Suitable for ages 1-4

The many different vehicles in this range help develop children's motor skills at an age when they are busy experimenting with using their own bodies, and finding new ways to move using their bodies. This is why it is important that this range is particularly comprehensive.

- Maximum safety
- Complies with all current safety standards
- 3-year warranty on frame and fork

Winther has been owned by the same family since the company was set up in 1932. It's now in the hands of the third generation of Winthers. For years, Winther has focused on making high-quality trikes and children's bikes for the educational market.

It begins with the feet – and ends with social intelligence

Our concept is collected under the heading "Learning by moving". Our means are wheeled toys that help youngsters to make better use of their bodies, to move and to play. Winther trikes and bikes stimulate children to move and to play and their bodies respond in the form of increased physical and mental capacity.

A toddler's very first trike, where they have to use their legs to push it along, presents their brains with a three-dimensional challenge and helps teach them to pay attention to what their body is doing, and to focus on doing one thing at a time. Winther bikes and trikes help turn children's movements into play activities.
