

Viking

For kindergartens, schools, after-school clubs and playgrounds

Facts

Viking is probably the world's best range of wheeled toys for educational use. The range is comprehensive, and Viking quality is second to none. Viking durability can't be beaten and these products provide children with countless play opportunities. Viking products have been developed for children to play with in kindergartens, schools, after-school clubs and in playgrounds of all kinds. You will see our products all over the world, almost always in the company of children absorbed in investigating themselves and their surroundings.

Suitable for ages 2-12

There are many different products in this range, each designed for children with different levels of motor skills and aimed at helping them in their play and development. The extent of the Viking range is important, because it gives children the best access to play activities on a scale that suits their differing builds.

Viking products are toys with considerable play and activity value.

The range includes:

- Traditional tricycles
- Taxi vehicles for more children at once, designed to stimulate their role-playing activities
- Various types of specialized vehicles, including vehicles suitable for children with disabilities

Good play provides challenges, without jeopardising safety

Children develop through play. But their play activities have to be safe. That's why all the details in Winther products are carefully designed for day-to-day pleasure in the

playground, and so that children's fingers do not get caught. All the screws and bolts are hidden, and all the edges are rounded off.

Coupling to add further play value.

Harmonious, safe design with no sharp edges. Strong, oval-shaped tubes ensure maximum strength.

Weather-resistant rubber seat. Solid rubber handlebar grips.

Effective rust protection and impact-resistant powder coating that will last for many years.

New improved wheels with excellent durability

Spokeless wheels with solid rubber tyres.

Rubber stops to ensure children do not get fingers caught.

Strong, non-slip pedals. Solid one-piece steel crank.

Front and rear wheels are fitted with long-lasting industrial ball bearings, which also makes pedalling easy.
