

New improved Mini Viking

For day care facilities and crèches

It begins with the feet – and ends with social intelligence

We are all born with a social driving force that children express and explore via play. It is via their play activities that children acquire a basic awareness of social space and of the

rules that apply there. This is the way that children learn to take part in social interaction in which some of their needs are met, but others are not, out of consideration for the group. This makes bikes ideal for social games – both trikes, taxis and other specialized vehicles with space for several playmates.

Facts

The Mini Viking range is a comprehensive selection of products designed for use in day care facilities and crèches. This range take into particular consideration the kinds of motor skills children have at this age, and are designed to aid their development. The play value is high, and they are ideally suited for children in this age group. Children love the Mini Viking.

Suitable for ages 1-4

The many different vehicles in this range help develop children's motor skills at an age when they are busy experimenting with using their own bodies, and finding new ways to move using their bodies. This is why it is important that this range is particularly comprehensive.

The range includes:

- Pushbikes, without pedals
- Traditional tricycles
- Vehicles for more children at once, designed to stimulate their role-playing activities
- Scooters that help develop balance and coordination skills
- Specialized vehicles

Coupling to add further play value.

Anatomically correct, adjustable seat.

Safety handlebar grips.

Effective rust protection and impact-resistant powder coating that will last for many years.

New improved wheels with excellent durability

New improved handlebar system for easy assembly

Spokeless wheels with wide tyres.

Safe design featuring rounded-off shapes and no sharp edges.

Strong nylon bearings for both front and rear wheels.

Strong, non-slip pedals. Solid one-piece steel crank.
