NEW

## Viking Tridem | Model 492.00

Funny and challenging vehicle for three children. It is aimed at the age group 4-8 years. It challenges the social competencies by needing a mutual coordination of movements among the users. By this the vehicle is excellent for role plays and to strengthen the cooperation among the children.

Imagine the children sitting on the tridem, all having a cosy time by chatting cheerfully with one another. In this way the tridem stimulates their social life and opens up for a vivid use of their imagination in developing mutual play with the tridem as the centre of their plays.

Like all our other vehicles the tridem is characterized by supporting motor abilities, imagination, reflexes and senses of the children.
